

CARDINAL

From the top of Cardinà, a peak of Lagorai mountain chain, a stunning view goes from the majestic Cima d'Asta, towards the Dolomites of Fiemme and Fassa. This larch wood, with its ancient and marked feature and its slightly bleached tones, gets inspiration from the touching landscapes of this land.

Technical specific

Wood	Larch
Thickness	15 mm
	Th. top layer 3,6 mm
Width	161\195 mm
Length	1850\2000\2400 mm
	according to availability
Selection	Unique
Back	Conifer
Origin	European Union
Fire resistance class	Cfl-s1
Formaldehyde emission	E1 (<0,1ppm)
Conductivity	0,14 W/mK
Thermal resistance	0,11 K/W
Weight	8,1 Kg/mq
Humidity	8%+ / -2%
Hardness	19-25 N/mm ²
