

CROZ

In Fiemme's dialect, "croz" means cliff, as this baked oak is dark like ancient stones. It looks like coal, even if time tends to fade it showing dark red glares that hide in its shadows.

Surface | ANCIENT TOUCH

Technical specific

Wood	Thermowood oak
Thickness	15 mm
	Th. top layer 3,6 mm
Width	154\188 mm
Length	1850\2000 mm
	according to availability
Selection	Variegated
Back	Spruce
Origin	European Union
Fire resistance class	Cfl-s1
Formaldehyde emission	E1 (<0,1ppm)
Conductivity	0,14 W/mK
Thermal resistance	0,10 K/W
Weight	8,4 Kg/mq
Humidity	5%+ / -2%
Hardness	41 N/mm ²
